Organized

Guest Lecture

On

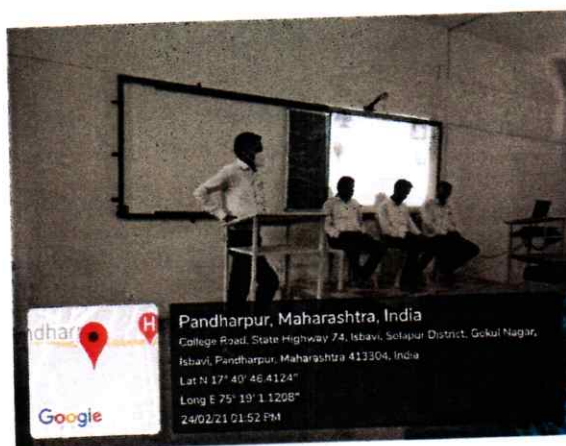

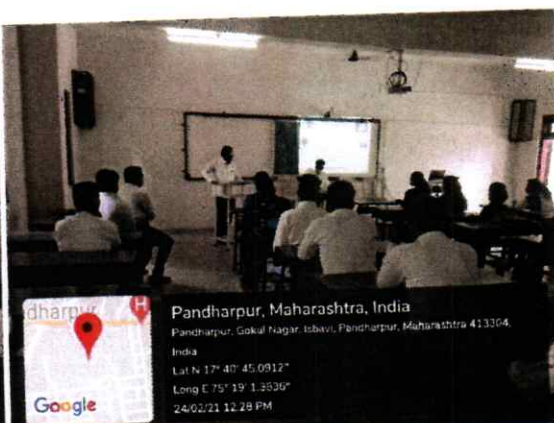

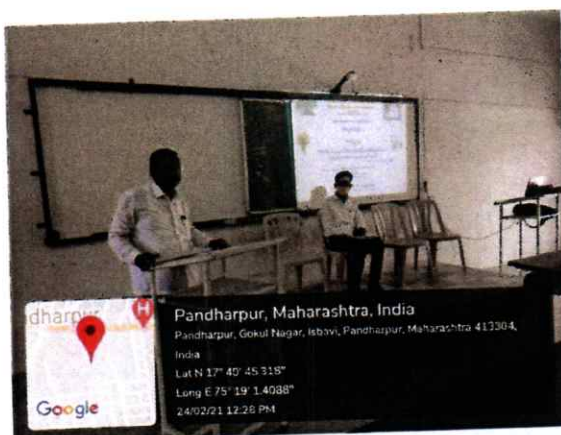

“Physical and Chemical Purification and Hallmark System in Gold”

Under the aegis of RUSA Component 8

Date: 24th February 2021

Report

Department of Chemistry organized guest lecture on “Physical and Chemical Purification and Hallmark System in Gold” for UG and PG students. The main objective of organizing this guest lecture was to create awareness among the student about Hallmarking of Gold by Jewellery manufacturer.

Welcome and introductory speech was given by Prof. R. N. Zambare, Head, Department of Chemistry. The resource person for this lecture was Mr. Lakhan Dharma Gaikwad, Incharge, Swastik Lab and Hallmark Centre, Secunderabad, Hyderabad District, Telangana. He explained about the importance of Hallmark on gold jewelry to ensure its purity. Hallmarking is used for certifying the purity and fineness of gold. Hallmarking gives consumers an assurance regarding the purity of the gold they bought. He also explained the disadvantages of buying the gold without hallmark, that is, if someone buy hallmarked 18K gold jewellery, it will actually mean that 18/24 parts of gold is present and rest is alloy. Further Mr. Lakhan Gaikwad also interpreted the physical and chemical methods for purification of gold from its alloy mixture. Total 51 students from UG and PG were present for this lecture.

Mr. R. J. Kavade, Dr. B. S. Londhe, Dr. J. B. Gujar, Mr. S. M. Bansode, Ms. S. B. Mali, Miss. T. B. More, Mr. S. R. Lamkane and Mr. H. M. Galande has taken the initiatives for organizing this event. Dr. S. S. Karhale proposed the vote of thanks. The overall programme was coordinated by Mr. A. S. Kadam.
