541.	The NCF enables the federal structure of school education, with States ultimately setting their State	Yes	Good	No	No	Cross-cutting issues include Gender, Youth,	However, there are challenges to consider. Barriers to integrating ICT in

	or regional curricula, easily incorporating local elements. The NCF incorporates and enables the major paradigm shifts as recommended by the NEP 2020, including: Holistic and multidisciplinary education.					Environment and Climate Change, and Disaster Risk Management. Cross-cutting issues are topics that are identified as important and that affect and cut across most or all aspects of development. These topics should therefore be integrated and mainstreamed throughout all stages of development from policy design, to implementation, evaluation and learning.	teaching and learning include a lack of resources, time, access, and technical support. Teachers may also need to improve their skills in operating technology to enhance students' digital literacy.
